COMPETITION ARENA

1. Each competition area shall measure 6 meters x 6 meters.
2. Competition areas shall be separated from the spectator areas by a physical barrier. Nobody except the competitor and officials are allowed on the competition side of the barrier.

POINT SCORING

The referee and judges will award points at their own discretion if in their opinion a legal point has been scored. Two corner judges freely score 'stand up' points and 'ground points' as determined solely by the Center referee.

STAND-UP POINTS

1. **One point** is awarded for legal strikes to the trunk, side of head with control, and legs with the joints only.
2. **One point** shall be awarded for each controlled kicking technique or legal hand technique delivered to the sides of the head including controlled contact with any part of the ear areas. The face, throat and forehead as well as back of neck and spine area are excluded. No punches to the head! Only ridge-hand, conventional back-fist or a sighted spinning back-fist are permitted. **Acceptable power to the head region is considered as 'Controlled Contact'**.
3. **One point** shall be awarded for each hand strike or kicking technique delivered accurately and with sufficient power to the mid-section area and sides of the torso, in the absence of any violations.
4. **One point** shall be awarded for kicks to the inside and the outside of the upper leg (above the knee) that are delivered with enough controlled force. Do **NOT strike** against the direction of motion of the knee!
5. **One point** shall be awarded for rear leg sweep below knee and above ankle with sufficient power to warrant a point.
6. **One point** shall be awarded for all direct intentional strikes to the groin while standing; striking to the groin on the ground is permitted but without a point awarded.
7. **One point** shall be awarded for legal techniques, which result in an 'intended' takedown and end up in a dominant position once they hit the ground. This point is awarded by the Center judge only as directed in the 'Ground Points' section.
8. **A maximum of five points** only will be awarded by the corner judges for a standing clinch where one of the competitors is scoring striking points while the other is engaged in the attempted take down. This is an accumulative award from any type of point striking during the clinch. If the clinch breaks, or the Center judge breaks the competitors instead of going to the ground, then there is a reset and another five points can be awarded under the same circumstance.
9. **Points** can also be earned by utilizing controlled knees to the targets described above in 'Stand-Up Points' section with the exception of the head. While applying a clinch, only one hand can be around the neck with the other controlling the opponent's arm while striking with a knee to the groin or torso area. Knee strikes should be executed with a forward, not an upward thrusting motion, to prevent striking to the face.

GROUND POINTS

1. When the fight is taken to the ground the Center judge immediately takes control of awarding any scoring points from the point of, and including the takedown. The judge will indicate ground point/s to the fighter that earns the point/s with a loud, verbal command while pointing to the same fighter with one hand and holding the finger/s up of the other indicating the number of points given. The corner judges then add these points as directed.

2. **Two points** shall be awarded for gaining and maintaining a dominant position of “Side Control” held for at least three seconds before awarding the point.
 - Side Control must be past both legs of the opponent on the ground for at least three seconds or one “knee in the belly”. These two variations of side control will be accumulative for the three second control for point award.
 - “Advancing position” will be determined by moving from a guard to side control.

3. **Three points** shall be awarded for gaining and maintaining a dominant position of “Full Mount”, or “Back Control” held for at least three seconds before awarding the points.
 - Back Control they must have both feet hooks in.
 - Full Mount must have both knees/shins on the ground wherever possible.
 - If a competitor is face down in the turtle position and the opponent takes their back with a controlling mount with hooks in but within the three second time frame the competitor on the bottom rolls over while the controlling opponent remains in control the time continues toward the score of 3 points.
 - Advancing positions will be determined by moving from a guard to side control, side control to full mount or back control. Once full mount or back control has been established, independent of scoring a point, you may not score points for moving back to side control.

4. **One point** will be awarded for a reversal independent of whether the opponent has been awarded points or not. Also one point will be awarded for an escape from an arm bar, rear naked choke, or other established locks or chokes. Once the reversal has been awarded, all ground points return to the beginning stage.

5. **Five points** shall be awarded for an arm bar, lock or choke or any submission resulting in a tap from the opponent. This will immediately cause the fight to stop. Submission is when a fighter “taps out” (continuous tapping on the mat or opponent to alert the referee). The fighters will immediately return to the Center of the ring to continue the fight.

The Center judge has the right to stop the fight if he thinks the technique will render the opponent to injury, and award 5 points. This rule is in place to protect the safety of the competitors.

Techniques must be applied in a controlled manner in order to be awarded.

The winner is determined by superior point totals of successful hits (solid contact) using hands, feet, knees and elbows during stand up and also takedowns, advancing controlling positions and submission techniques.

Deductions - Full point deductions for prohibited acts at the Center referees' discretion are done during a break in action and in time and are shown as points being awarded to the opponent.
